2491 Students
Surveyed

90%

found this
program
interesting

93%

learned something
through this
program

90%

were likely to
recommend this
program

Participants reported it would be easier to.....

...say **"no"** to sex

...use a condom and/or **birth control** (other than a condom)
when you have sex

...find a **place to get tested and get tested** for STD/HIV

...get their partner to **not have sex**, even if their **partner**
wanted to

...find **health information and services** in their community

From April 2017 to October 2018

35522
