

Be Proud Be Responsible in High School

Pre-/Post-Survey Findings

Between April 2017 - August 2018

35,522 students participated in Be Proud Be Responsible

2,491 participants were surveyed and reported that...

It would be easier to say
"no" to sex.

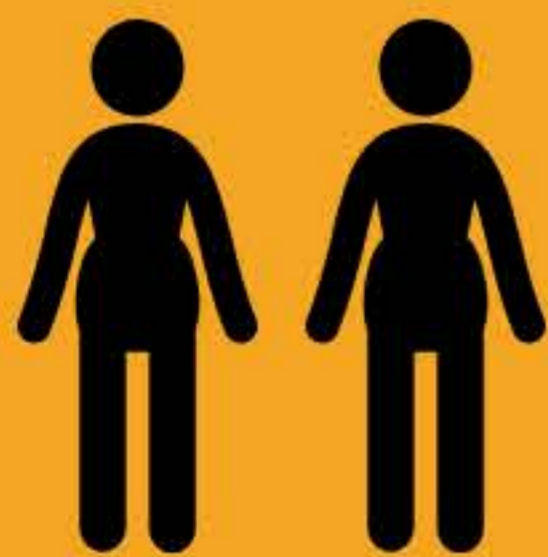

It would be easier to find a
place and get tested for
STD/HIV.

It would be easier to use a
condom and/or birth
control (other than a
condom) when they have
sex.

It would be easier to get
their partner to not have
sex, even if their partner
wanted to.

It would be easier to find
health information and
services in their community.

90%

of participants found this
program interesting.

93%

of participants learned
something through this
program.
